

A charming portrait miniature of unknown girl

POA

REF: 4732

Height: 3.5 cm (1 1/2")

Short Description

She wears a blue dress with fine lace bodice, her neatly plaited hair decorated with a spray of pink and violet flowers

Set in the original gold bracelet clasp frame

Although seemingly not signed on the obverse, this may well be inscribed on the reverse (the miniature has not been opened). It is an enchanting portrait and brilliantly shows off the fashionable costume of the 1760's
